T77—LIGHTHOUSE SERIES

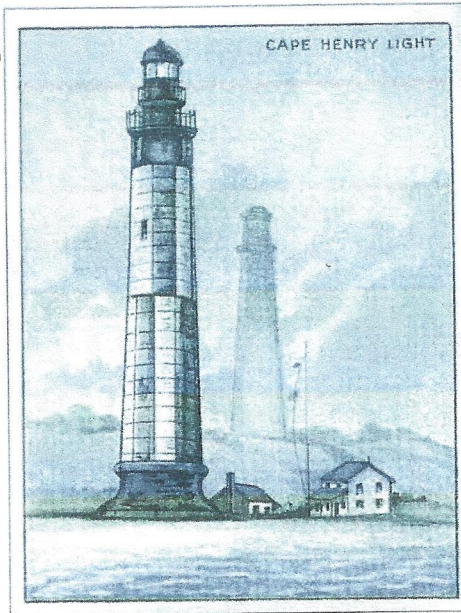

2 1/4 by 3 1/4 inches • 64mm by 83mm
Series of 50 cards • Card value: \$4.50

This series contains attractive color drawings of 48 lighthouses in coastal locations around the country, plus the Statue of Liberty and a card depicting early coastal signaling methods. The lighthouses are mostly in the East, but there are a few (such as Tillamook Light) from the West Coast. The backs contain information about the lighthouse, the sound of its signal, and the year it was established. The series was distributed from two factories in early 1911.

Fronts: A horizontal or vertical color drawing of a lighthouse appears against background scenery and is surrounded by a thin black frame line and a 1/16- to 1/8-inch white border. The card title is printed at the top in the picture area.

Backs: The series title is at the top, then the name of the lighthouse and a brief descriptive paragraph. A Hassan ad follows, with the factory line at the bottom. The text is surrounded by a wavy design line.
